

## **REMARKS/ARGUMENTS**

Applicant has received the Office Action dated April 5, 2007, in which the Examiner: 1) rejected claims 1-11 and 15-18 under 35 U.S.C. § 112, 2<sup>nd</sup> paragraph, as allegedly indefinite; and 2) rejected claims 1-11 and 15-18 under 35 U.S.C. § 102(b) as allegedly anticipated by Wallach et al. (U.S. Pat. No. 6,292,905, hereinafter "Wallach"). With this Response, Applicant has amended claims 1, 7 and 15-18 and added new claims 19-20. Based on the amendments and arguments herein, Applicant respectfully submits that the claims are in condition for allowance.

### **I. REJECTIONS UNDER 35 U.S.C. § 112, 2<sup>ND</sup> PARAGRAPH**

The Examiner rejected claims 1-11 and 15-18 under 35 U.S.C. § 112, 2<sup>nd</sup> paragraph, as allegedly indefinite for containing the terms "minimally configured" and "temporarily." In the interest of compact prosecution, Applicant complies with the Examiner's request that these claims be amended to remove all instances of "minimally configured" and "temporarily." Because Applicant has complied with the Examiner's request, Applicant kindly requests that the Examiner remove this rejection.

### **II. REJECTIONS UNDER 35 U.S.C. § 102(b)**

During a telephone interview on June 26, 2007, the undersigned and the Primary Examiner together agreed that amending the independent claims to recite that "a workstation is re-configured as a server upon transfer of software to the workstation" (or a similar limitation) would make all pending claims patentable over Wallach, since Wallach fails to teach or suggest such a limitation. In accordance with that agreement, Applicant amends each of the independent claims 1, 7, 15 and 17 to include such a limitation. Because the amended independent claims (and, therefore, the dependent claims) contain subject matter that is patentable over Wallach, Applicant respectfully requests that the Examiner remove this rejection.

### **III. CONCLUSION**

In the course of the foregoing discussions, Applicant may have at times referred to claim limitations in shorthand fashion, or may have focused on a

particular claim element. This discussion should not be interpreted to mean that the other limitations can be ignored or dismissed. The claims must be viewed as a whole, and each limitation of the claims must be considered when determining the patentability of the claims. Moreover, it should be understood that there may be other distinctions between the claims and the cited art which have yet to be raised, but which may be raised in the future.

Applicant respectfully requests reconsideration and that a timely Notice of Allowance be issued in this case. It is believed that no extensions of time or fees are required, beyond those that may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 C.F.R. § 1.136(a), and any fees required (including fees for net addition of claims) are hereby authorized to be charged to Hewlett-Packard Development Company's Deposit Account No. 08-2025.

Respectfully submitted,
